

Sordi Her Choice

for Region 14 Board

To the Editor:

Over the past five years I have come to know Stephen Sordi and I have found him not only to be responsible, but one of true dedication and commitment. My husband and I have seen this first hand through our son's involvement with the State Police Explorers Troop, Post #074.

Steve is one of three advisors for this post and has taught them not only key values and technical skills, but responsibility and respect of others. As you come to know Steve Sordi you will see that he is not a person with an agenda, but one who wants to make a difference.

Although Steve gives many hours to the troop, he has still managed to spare time for his current involvement on the Region 14 Building Committee and various community functions.

Stephen Sordi can bring a vast assortment of professional and life experiences which our region should find an asset and can capitalize on.

You will find him not only willing to listen, but to investigate and make recommendations based on his findings. This is why I strongly endorse Steve as a wise choice to support our schools and children with being on the Region 14 board. Please vote on June 7.
